# Oil Essences

PURE NATURE

# Oil Essences

NUTRI GOLD | PURE JOJOBA | EXTRA SENSITIVE  
with 100% natural, PURE OILS

The new **Afrodita Professional Oil Essences** contain completely **natural, plant-based oils**. These oils complement each other in 3 different products developed according to purpose and skin type.

## WHY SHOULD NOURISHING, BEAUTY OILS BE USED?

The oils contain **essential fatty acids** (omega-3, omega-6), which are crucial for the **regeneration** of cell membranes and the **protection** of intracellular structures. The skin is unable to produce omega-3 and omega-6 essential fatty acids, but they can be supplied by means of oils.

### VERSATILE USE

as stand-alone  
products  
OR after  
applying  
a cream

OR

as an addition to the  
chosen nourishing cream  
(mix the oil in the cream in the  
palm of your hand and apply it  
to your face).

Oil Essence
